

Agenda

Convenors: Helen Killeen (USA), Karen Hunter (Canada), Hiroki Wakamatsu (Japan)

W7: Censusing Extreme Climate Events in the North Pacific

Co-sponsors: CLIVAR, BECI

Time (GMT-7)	Session
08:45–09:00	Arrival & informal discussion
09:00–09:15	Welcome & workshop objectives
09:15–10:00	WG49 Systematic Review: What have we learned?
10:00–10:30	From evidence base to ECE census
10:30–10:50	Coffee/tea break
10:50–11:35	Cross-regional synthesis: What are the key findings?
11:35–12:20	Research & management relevance
12:20–12:30	Morning synthesis & afternoon priorities
12:30–14:00	Lunch
14:00–14:15	Arrival & manuscript objectives
14:15–15:00	Building the ECE census framework
15:00–15:30	From census to synthesis: Identifying the story
15:30–15:50	Coffee/tea break
15:50–16:30	Manuscript architecture & figures
16:30–16:50	Workplan & responsibilities
16:50–17:00	Closing: Decisions & next steps

Expected outputs

- A synthesized set of key findings from the WG49 systematic review.
- A draft framework for a North Pacific ECE census.
- A preliminary manuscript outline, including priority figures and tables.
- Identification of major knowledge gaps and regional evidence gaps.
- A workplan for manuscript development and WG49 reporting.
