

The Third NPAFC-IYS **Virtual** Workshop on Linkages between Pacific Salmon Production and Environmental Changes

MAY 25–27, 2021*

***MAY 26–28, 2021 in Japan, Korea & Russia**

The workshop format has been changed to a virtual online workshop with live sessions, pre-recorded oral, and E-poster presentations due to the ongoing COVID-19 pandemic and travel restrictions around the world.

CALL FOR PAPERS

Abstracts Due:

JANUARY 15, 2021

More information:

<https://npafc.org/workshop21-home/>

or email to secretariat@npafc.org

MAJOR TOPICS

- Salmon production in changing environments
- New technologies/integrated information systems for salmon research and management
- Resilience for salmon and people: lessons from the Great East Japan Earthquake in 2011

***International Year of the Salmon (IYS)** is an international framework for collaborative outreach and research. Through outreach efforts the IYS will raise awareness of what humans can do to better ensure salmon and their habitats are conserved and restored against increasing environmental variability. For more information visit: <https://yearofthesalmon.org/>*

International Year of the Salmon
